knew that anthrax was developed in South Africa, but does not know if it was originally obtained from outside South Africa and from whom, or if it was anthrax naturally occurring in the region. was aware that Project Coast was working to develop "better" strains, which explained meant more effective in terms of infection, vaccine resistance, and lethality. does not know when he first became aware South Africa had anthrax. When asked if he could give a time frame of when he became aware that Project Coast possessed anthrax, stated the year 1983 came to mind.

b6

was shown copies of 46 photographs. stated that photograph 1, depicting a white male in combat dress holding a long gun, is definitely not related to South Africa. made his assessment based on the weapon and clothing. stated the weapon was not similar to what they actually used and said the photo was non-typical of what was going on around them. He thought the long gun appeared to be configured to shoot "blanks." further described the man in photograph 1 as being in a "heavy" pose, dressed up to impress people but doesn't actually do anything. pointed out that where the person is carrying a knife (on his right shoulder) is not a place where any provisional soldier would carry it. It does not make sense to carry the knife in the position depicted in the photograph.

b6
b7C
b7D

Photograph 2 was identified by as being the 44 Para Brigade (44 Parachute Brigade, also known as 44 Para Bat or Parachute Battalion). made this identification based on

b6
b7C
b7D

b7E

the clothing and equipment visible in the photograph (such as the beret and parachute). According to the person shown standing is a non-commissioned officer, and an officer is visible in the foreground. identified as the individual seen standing in the photograph.

b6 b7C b7D

The building in photograph 4 was identified by as possibly an SAS mess hall. He thought it may have been Selous Scouts, but likely SAS. did not recognize what appears to be a military compound depicted in photograph 18.

b6 b7C b7D

identified photograph 20 as a hotel complex. Photograph 22 appeared to as an ammunition dump. stated the structures in photograph 23 were microwave towers. Photograph 31 could have been taken anywhere, but the surroundings suggested to to be in Mozambique.

b6 b7C b7D

Photograph 34 depicts a white male seated behind a desk in an office. has seen this person, but cannot place him. believes it was possibly in 1978 at Buffalo Ranch in southern Rhodesia. stated the man is in "mess dress."

Unless otherwise noted by the photographs were considered by to have been taken in Rhodesia based on the vehicles and buildings visible in the photos. Photographs 25-43 were generally Rhodesian, and nothing specific in the photos was noted, although stated the structure in photograph 31 would be typical of an

b6 b7C b7D

recognized the person in photograph 44, but did not known where he had seen the person. Photograph 44 is actually two passport photos of a white male. thought it was most likely he recognized the man from working with specifically the reiterated he did not know the person but had seen his face. thought the person may have been associated with Selous Scouts or Security, but probably not SAS. also suggested Rhodesian Light Infantry (writer's note: photograph 44 is actually two passport photographs of from the period he was in was not told who the person was, although signature is visible on the passport).

b6 b7C b7D

Photograph 45 depicts a white female sitting in the lap of a white male. did not recognize either person but described the female as either English South African or Rhodesian, probably Rhodesian (writer's note: the white male in the photograph is and the female is believed to be

b6 b7C b7D

studied photograph 46, which depicts a white male in a laboratory setting. stated he did not recognize the person "in that context," meaning in a laboratory setting (writer's note: photograph 46 is a photograph of at stated the person in the photo had a Rhodesian affiliation because of the insignia visible on his tie. recognized the insignia as either SAS or Selous Scouts and assumed the person would have been affiliated with the medical side.

b6 b7C b7D

commented that he likely had interaction with the person in photographs 44 and 46, but without any personal discussion. stated the names came to mind when he saw the photos, but that does not mean they were actually associated. (whom claims to know very well) were involved in an incident on the Mozambique border, during which DAVE TIPPETT (true name) was killed. stated that after the incident, they all "scattered;" he believes moved to Namibia.

b6 b7C b7D

was familiar with the names and ROBERT SYMINGTON, but did not know them.

was linked to and that was linked to the (writer's note: open source information shows that Lubowski was someone killed and that believed it was a wrongful killing).
